Stocks at London.

Stocks at London.

New York, Nov. 16.—The Evening Post's London financial cablegram: Americans were the only active market today, and even in this the support was still mainly confined to Paris, Berlin and professional operators here, no transactions for the public yet being recorded. The closs was featureless, Kaffirs were flat on the proposed tax on mining companies by the Transacian government.

Money tates in Berlin are a fraction easier. New York is said to be lending a large amount of money to Germany for two or three months, but I cannot verify

the report. Germany, however, is buying gold here strongly at 75s 54d.

The Metal Markets.

New York, Nov. 18.—It was a day of harrow changes and time business on the metal market. The moved up slightly on fair demand and rather different attitude of sellers.

Lead was casier and the rest of the list without change of importance. News was scarce and of indifferent purport, and the trade indisposed to operate extensively at this period of the week. At the close the metal exchange called:

The most initiaential factor in causing weakness was the obvious liquidation going on in Northern Pacific, which is sittibuted to one of the leading officials of the property. Rumons are fife also of the breaking up of the agreements which have been so favorable a factor in the northwestern railroad world. The effect was manifest not only in Northern Pacific but in Union Pacific and other railroads in the region affected.
